1. The following figures relate to finished wire-drawing diamonds (1) produced from 1 July 1951 through 31 January 1952 at the Kabelwerk-Koepenick, Berlin-Adlershof plant:

	<u>Piece</u>	<u>Carat</u>
July - September 1951	5,428	1,984
October 1951	2,176	819
November 1951	2,080	830
December 1951	3,524	1,689
January 1952	2,169	721

2. The following table indicates the distribution (2) of wire-drawing diamonds produced by the Kabelwerk-Koepenick during the period 1 July 1951 through 31 January 1952:

	<u>Piece</u>	<u>Carat</u>
<u>July - September 1951:</u>		
(SAG Kabel) Kabelwerk-Koepenick (Abt. 1)	237	246
" " Kabelwerk-Koepenick (Abt. 24a)(3)	2,815	853
(SAG Marten)Walzwerk fuer Buntmetalle,Hettstedt	2,495	962
(SAG Kabel) Kabelwerk Operspree, Berlin-Oberschoeneweide	33	42

In workshop		1,543	
Finished stockpile		2,404	
Special stockpile		5,826	
Government trustee stockpile	1,738		16,561

- (1) [] Comment: The Kabelwerk-Koepenick's production of polishing (Abrichter) diamonds, carried on on a considerably smaller scale than that of wire-drawing diamonds, is not indicated in the above information. Carat quantities in the above table are indicated in round figures.
- (2) [] Comment: Production and distribution figures in paragraph 1 and 2 do not tally in any single month, since stocks are carried over from one month to another.
- (3) [] Comment: In paragraph 2, wire-drawing diamonds delivered to Kabelwerk-Koepenick (Abteilung 24a) and to Walzwerk fuer Buntmetalle, Hettstedt, are used entirely in drawing fine nickel wire for the Tewa/Neustadt program. The wire-drawing diamonds delivered to Kabelwerk-Koepenick (Abteilung 1) and to plants other than Hettstedt are used in the drawing of electric filaments and other coarser wire-drawing processes.
- (4) [] Comment: Possibly Tewa Praezisionswerkzeugfabrik Gruena, formerly Kratos-Werke, owned by Walther Nacken.
- (5) [] Comment: Not further identified.
- (6) [] Comment: In paragraph 3, the five stockpiles at the Kabelwerk-Koepenick, Berlin Adlershof plant, are listed separately because they are physically located in different places throughout the plant.
- (7) [] Comment: The Kabelwerk-Koepenick acts as official tester, scorer, and distributor of all rough diamonds and diamond bort imported by the DDR. The government trustee stockpile (Regierungs-Treuhandlager) of rough diamonds and diamond bort, administered by the Kabelwerk-Koepenick, is under the direct supervision of the Deutsche Handelszentrale Elektrotechnik-Feinmechanik-Optik, under the direction of Frau (fnu) Witte.
